

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

# GUARANTY INVESTMENT COMPANY

CAPITAL \$250,000.

Offices: Atchison, Kan. 191 Broadway, New York. 222 Walnut St., Phila.

Hon. ALBERT H. HORTON (Chief Justice, Kansas Supreme Court), Topeka, Kan., Pres't.

## 7% Guaranteed Farm Mortgages 7%

*The Guarantee Investment Company makes loans upon fertile farms in the choicest portions of Kansas and Nebraska and has adopted the policy of sending a Committee of its Investors each year to examine its loans and methods of business.*

*The Committee this year consisted of PROF. A. H. BERLIN, Principal of the High School Montrose, Pa., and MAJ. THEODORE L. POOLE, Ex-U. S. Pension Agent, Syracuse, N. Y. Both of these gentlemen are persons of the highest character and have the confidence of the Communities in which they reside.*

*The Committee has recently returned and has made a very interesting Report upon the general development of Kansas and Nebraska as well as the business of the Company. The Company will be glad to send this Report to any address.*

*The following names are taken from the long list of Investors in our Mortgages:*

(See if Some Friend of Yours is not in the List.)

William A. Cauldwell, 59 Liberty St., N.Y.  
Palmer Cox, 688 Broadway, N.Y.  
Rev. Jos. H. Ryland, D.D., 11 Livingston Place, N.Y.  
Rev. Brady E. Backus, D.D., 360 West 28th St., N.Y.  
Rev. R. M. Sommerville, 125 West 45th St., N.Y.  
Dr. Robert A. Murray, 235 West 23d St., N.Y.  
Dr. James P. Tuttle, 136 West 41st St., N.Y.  
H. Edwards Rowland, 218 Fulton St., N.Y.  
Irving H. Tiffet, Esq., 271 Broadway, N.Y.  
Prof. D. G. Eaton, 55 Pineapple St., Brooklyn, N.Y.  
Dr. F. P. Thwing, 156 St. Marks Ave., Brooklyn, N.Y.  
Dr. C. C. Miles, Greenport, N.Y.  
John V. N. Bergen, Port Jefferson, N.Y.  
Benj. W. Stilwell, Yonkers N.Y.

R. C. Coleman, Goshen, N.Y.  
Mrs. Samuel Carlisle, Newburg, N.Y.  
Dr. C. C. Bartholomew, Ogdensburg, N.Y.  
Rev. Nelson Millard, D.D., Rochester, N.Y.  
Rev. Horace G. Hinsdale, D.D., Princeton, N.J.  
Dr. Charles M. Howe, Passaic, N.J.  
George A. Skinner, 5 Railroad Place, Newark, N.J.  
Dr. Edwin M. Howe, 85 Halsey St., Newark, N.J.  
Dr. H. G. Buckingham, Clayton, N.J.  
Dr. Martin Cole, Jr., Hainesville, N.J.  
Mortgage Trust Co. of Pa., Philadelphia, Pa.  
Miss Mary Miller, 1230 Spruce St., Philadelphia, Pa.  
Henry D. Biddle, 311½ Walnut St., Philadelphia, Pa.

Dr. Calvin C. Halsey, Montrose, Pa.  
Rev. William Baldwin, Great Bend, Pa.  
Gen. William Lilly, Mauch Chunk, Pa.  
Second Nat. Bank, Mauch Chunk, Pa.  
Enos E. Thatcher, West Chester, Pa.  
Mrs. Townsend Poore, Scranton, Pa.  
Rev. Burdett Hart, D.D., New Haven, Conn.  
Dr. Frank H. Wheeler, New Haven, Conn.  
Charles R. Christy, Stamford, Conn.  
Mrs. Catharine P. Fuller, Woodmont, Conn.  
Miss Jessie Henderson, Lenox, Mass.  
Dr. M. J. Halloran, Worcester, Mass.  
Albert Walker, Bennington, Vt.

**HENRY A. RILEY, General Eastern Manager, 191 Broadway, N.Y.**

## GEOLOGY AT A GLANCE.

### Ives Strata Map of part of the United States of America and Canada,

**In which the Architecture of the Earth's Crust is Graphically Exhibited, Illustrating Fundamental Facts alike of**

#### **STRUCTURAL GEOLOGY AND PHYSICAL GEOGRAPHY.**

The Strata Map is a device for the more efficient teaching of Physical Geography and Elementary Geology in Schools. It consists of a series of Ten Superimposed Maps, of DIFFERENT COLORS, representing the several geological formations of the district, enclosed in a glazed frame, the whole hinged to admit of examination in detail. By its means superposition, denudation, and outcrop of strata are graphically exhibited, with the phenomena of escarpments, outliers, inliers, dip, strike, conformability, &c., and the Cards may be bent to show synclinal or anticlinal folds.

#### **OPINIONS OF EMINENT GEOLOGISTS.**

- |                                                                                                                                              |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                |
|----------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Yale University.                                                                                                                             | Professor James D. Dana.                                                                                                                                                                                                               | Academy of Natural Sciences of Philadelphia.                                                                                                                                                                                                                                                                                                              | Professor Angelo Heilprin.                                                                                                                                                                     |
| "Well fitted for the use of instruction in the science."                                                                                     | Professor Addison E. Virrill.                                                                                                                                                                                                          | "The representation of Strata, as imposed one upon the other, by means of cardboard is certainly a good plan, for apart from rendering more intelligible the general expressions of the Map, it permits of ready alteration and the possibility of constantly bringing the map up to date, in other words to make it conform to more recent discoveries." | Professor Alpheus Hyatt.                                                                                                                                                                       |
| "It will be of very great advantage in the teaching of geology."                                                                             | Professor N. S. Shaler.                                                                                                                                                                                                                | Boston Society of Natural History.                                                                                                                                                                                                                                                                                                                        | Professor R. P. Whitfield.                                                                                                                                                                     |
| Harvard University.                                                                                                                          | "An extremely useful adjunct to our means of illustration."                                                                                                                                                                            | "Your map representing superposition and the various phenomena of geological science, so far as the distribution of rocks on this continent is concerned, has greatly interested me. I think that in the hands of a good teacher it would prove an efficient and useful adjunct in the teaching of geology."                                              | "In the direction of a want long felt by Teachers of Geology and will undoubtedly be appreciated by them as well as by the student."                                                           |
| Johns Hopkins University.                                                                                                                    | President D. C. Gilman.                                                                                                                                                                                                                | American Museum of Natural History.                                                                                                                                                                                                                                                                                                                       | Major J. W. Powell, Director.                                                                                                                                                                  |
| "Wherever American geology is taught your map should be a part of the apparatus."                                                            | "The map will be of special use in schools, which can only devote a short time to the study of Geology."                                                                                                                               | "After examination I am able to state that the work has been executed with care and fidelity, and I believe it will be a valuable aid to teachers."                                                                                                                                                                                                       | "After examination I am able to state that the work has been executed with care and fidelity, and I believe it will be a valuable aid to teachers."                                            |
| Pennsylvania University.                                                                                                                     | Professor Geo. A. Koenig.                                                                                                                                                                                                              | New York State Survey.                                                                                                                                                                                                                                                                                                                                    | Professor James Hall, State Geologist.                                                                                                                                                         |
| "The map will be of special use in schools, which can only devote a short time to the study of Geology."                                     | "It seems to me that the device will commend the study of Geology to many persons who might otherwise regard the subject as difficult and uninviting. The work prepared by Mr. Ives ought to be used extensively in American schools." | "I believe that maps constructed upon this method would be extremely useful in the hands of competent teachers."                                                                                                                                                                                                                                          | "I believe that maps constructed upon this method would be extremely useful in the hands of competent teachers."                                                                               |
| Michigan University.                                                                                                                         | Professor Alexander Winchell.                                                                                                                                                                                                          | Pennsylvania Survey.                                                                                                                                                                                                                                                                                                                                      | Professor J. P. Lesley, State Geologist.                                                                                                                                                       |
| "A valuable aid to teachers of geology as a means of graphically representing the grand facts of stratigraphy in the Eastern United States." | "A valuable aid in teaching geology, giving as it does to the student a clear idea of the superposition of the different geological systems at a glance."                                                                              | "A piece of new and useful apparatus for teaching Geology, by representing to the eye of the student the areas of superimposed formations. I cordially recommend it to teachers and students."                                                                                                                                                            | "A piece of new and useful apparatus for teaching Geology, by representing to the eye of the student the areas of superimposed formations. I cordially recommend it to teachers and students." |
| Cornell University.                                                                                                                          | Professor H. Shaler Williams.                                                                                                                                                                                                          | New Jersey Survey.                                                                                                                                                                                                                                                                                                                                        | Professor Geo. H. Cook, State Geologist.                                                                                                                                                       |
| "A valuable aid to teachers of geology as a means of graphically representing the grand facts of stratigraphy in the Eastern United States." | "Am satisfied that its use will greatly assist students to understand the geological structure of the country."                                                                                                                        | "It is very neatly done and must prove a great help to intelligent teaching and studying of Geological Science."                                                                                                                                                                                                                                          | "It is very neatly done and must prove a great help to intelligent teaching and studying of Geological Science."                                                                               |

### Wants.

A YOUNG MAN can have lucrative engagement, not only a fixed salary, but according to his work accomplished in travelling for SCIENCE. A personal interview invited.

N. D. C. HODGES,  
47 Lafayette Place, New York.

"The Week, one of the ablest papers on the continent." — *Descriptive America*.

### ENLARGED AND IMPROVED.

## THE WEEK:

*A Canadian Journal of Politics, Literature, Science and Arts.*

PUBLISHED EVERY FRIDAY.

\$3.00 per Year. \$1.00 for Four Months.

THE WEEK has entered on its SIXTH year of publication, greatly enlarged and improved in every respect, rendering it still more worthy the cordial support of every one interested in the maintenance of a first-class literary journal.

The independence in politics and criticism which has characterized THE WEEK ever since its first issue will be rigidly maintained; and unceasing efforts will be made to improve its literary character and increase its value and attractiveness as a journal for the cultured home. Many new and able writers are now, or have promised to become, contributors to its columns, and the constant aim of the Publisher will be to make THE WEEK fully equal to the best literary journals in Britain and the United States.

As heretofore, PROF. GOLDWIN SMITH will, from time to time, contribute articles. London, Paris, Washington and Montreal letters from accomplished correspondents will appear at regular intervals. Special Ottawa Letters will appear during the sessions of Parliament.

THE WEEK in its enlarged form will be the same size as "Harpers' Weekly," and the largest paper of its class on the continent.

SEND FOR FREE SAMPLE COPY.

**THE CHEQUE BANK  
LIMITED.**

ESTABLISHED IN LONDON, 1873.

CHIEF OFFICE, 4 Waterloo Place, Pall  
Mall, London.

**TRUSTEES:**

The Right Honorable JOHN BRIGHT, M.P.

The Right Honorable EARL BEAUCHAMP.

Bankers: Bank of England.

The Capital of the Bank and its Guarantee Fund of \$93 is invested in Government Securities.

The Bank does not discount Notes or Bills, nor speculate, but loans its Deposits against Government Securities, thus making the Cheque Bank Cheques EQUAL TO CASH—as Bank of England Notes are.

The Cheque Bank issues Cheques singly or in books from ONE POUND upwards, for the use of Travelers, and for others remitting money to Europe, available in every town in England, Scotland, Ireland, and Wales. In every town of Europe, and all other parts of the world.

Cheque Bank Cheques are accepted as Cash by all the British Government Offices.

VISITORS TO THE PARIS EXHIBITION this summer can get the Cheque Bank Cheques cashed at 50 Banking Houses in Paris.

Travelers and others holding Cheque Bank Cheques can have their mail matter addressed to them, care of the Cheque Bank, London, who will take charge of the same and forward to any address.

For Hand-Book containing List of upwards of 2000 of the principal Banking Houses throughout the World who Cash the Cheque Bank Cheques, and for all information, apply to the AGENCY,
